Shelf Bracket 12"

To be used with wood or glass shelf.

Finished in Satin (F30) **136394A**

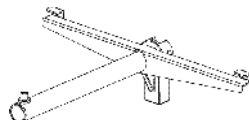

Maximum load = 44 lb. (20 kg.).

Shelf T-Bracket

To be used with wood or glass shelf. Finished in Satin (F30).

11½" x 12" **134819A**

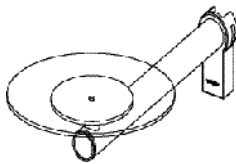

Maximum load = 44 lb. (20 kg.).

Beam Shelf Bracket

With 12" diameter glass. Finished in Satin (F30).

12" **157845**
Replacement glass **145842A**

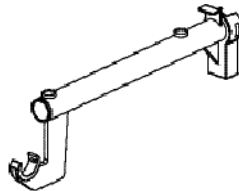

Maximum load = 33 lb. (15 kg.).

Shelf Bracket with Hangrail

Includes 2 rubber shelf rests. For use with hangrail (121529A, 121530A or 127312A). Ordered separately.

Finished in Satin (F30) **136793A**

Maximum load = 44 lb. (20 kg.).

Hangrail Bracket ø1"

For use with hangrail (121530A, 121529A or 127312A). Finished in Satin (F30).

12" **135174A**

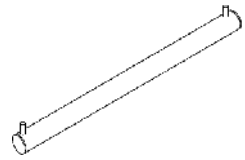

Maximum load = 44 lb. (20 kg.).

Beam *continued*

Hangrail ø1"

Insert into bracket (135174A and 136793A). Finished in Satin (F30).

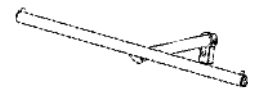

24" **121529A**
36" **127312A**
48" **121530A**

Hangrail T-Side ø1"

Finished in Satin (F30).

12" x 24" **142928**

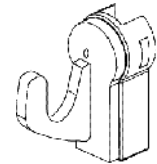

Maximum load = 44 lb. (20 kg.).

Crossbar Bracket – Ellipse

For use with crossbar (127133 or 127132). Finished in Satin (F30).

1⅞" **157476A**

Maximum load per bracket = 44 lb. (20 kg.).

Crossbar – Ellipse

Finished in Satin (F30)

24" **127133**
48" **127132**

Custom lengths available upon request. Lengths of 48" use a minimum of 3 to 4 brackets.

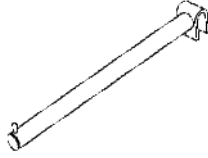

Beam *continued*

Straight Arm $\varnothing 1"$

Slips over crossbar – ellipse.
Finished in Satin (F30).

12"	127134
-----	---------------

Maximum load per
arm = 40 lbs. (20 kg.).

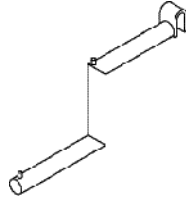

Stepped Arm $\varnothing 1"$

Slips over crossbar – ellipse.
Finished in Satin (F30).

12"	127135
-----	---------------

Maximum load per
arm = 40 lbs. (20 kg.).

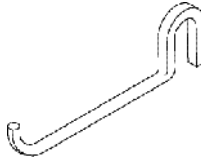

Hook for Crossbar

Slips over crossbar – ellipse.
Finished in Satin (F30).

4" x $\frac{1}{4}"$	127330
6" x $\frac{1}{4}"$	127332
8" x $\frac{1}{4}"$	125929
10" x $\frac{1}{4}"$	125786

Maximum load per
hook = 4 lbs. (2 kg.).

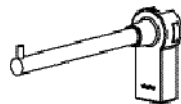

Straight Arm $\varnothing \frac{1}{2}"$

Finished in Satin (F30).

6"	129996
12"	129997

Maximum load per
arm = 33 lbs. (15 kg.).
