

CARE AND CLEANING OF WALL SYSTEMS

2009

For specific details contact the supplier of the face material as these are general guidelines only. Please verify your needs and results in a small area first.

PAINTED PANELS / VENEER PANELS / VINYL WRAPPED

Marlite Panels are easily cleaned with a soft, slightly damp (not wet) cloth and mild cleaners such as Pine Sol, Lemon Fresh, Lestoil, or Mr. Clean. Do not spray any liquid onto panels. Do not use cleaners with abrasive agents as it may damage the panel face. Apply cleaner to cloth only. Seal any scratches prior to cleaning.

HIGH PRESSURE LAMINATE (HPL) PANELS

Marlite Panels are easily cleaned with a soft, slightly damp (not wet) cloth and mild soap or detergent. Do not spray any liquid onto panels. Do not use cleaners with abrasive agents as it may damage the panel face. Apply cleaner to cloth only. Seal any scratches prior to cleaning. For stubborn stains use nail polish remover and rinse with warm water.

SPECIALITY FINISHED PANELS BELOW

Use of clean gloves to handle and install panels is a must. This will prevent oil and dirt from your hands getting on the panels. Wiping panels with a soft cloth is necessary.

FABRIC PANELS

Clean panels with a soft cloth or chamois. Use lukewarm water with a mild soap solution. Rinse panels well with clean water. Blot panels dry.

VINYL PANELS

Marlite Panels are easily cleaned with a soft, slightly damp (not wet) cloth and mild cleaners such as Pine Sol, Lemon Fresh, Lestoil, or Mr. Clean. Do not spray any liquid onto panels. Do not use cleaners with abrasive agents as it may damage the panel face. Apply cleaner to cloth only.

GLASS / ACRYLIC PANELS

Clean panels with a soft cloth or chamois. Use lukewarm water with a mild soap solution. Rinse panels well with clean water. Blot panels dry to prevent scratching the face. Do not rub dry as this will cause electrostatic charge and attract dust particles in the air. Do not use window cleaners or scouring compounds that have abrasives in them. Do not use solvent base materials.

METAL PANELS

Marlite Panels are easily cleaned with a soft cloth and mild soap cleaners or waxes. Glass cleaners may be used to remove streaks. Do not spray any liquid onto panels. Do not use abrasive cleaners or certain solvents as they may mar the surface. Apply cleaner to cloth only. Seal any scratches prior to cleaning.
